

Special Diet Policy

We are aware that there are many people with dietary preferences and needs. The Board of Directors is sensitive to those needs and also to the limitations of our kitchen and our great cooks. We do not have the staff, the time, nor the equipment to meet all the various venues of a restricted diet, such as gluten-free, or diabetic. It has long been our policy to encourage people with those needs to bring their own food and we will provide storage and a facility for preparing your food.
